Auger doser  
DFA

Excellent for needs of high quality and great variability of small and medium productivity.

The auger doser (DFA) allows to fill bags and boxes with high accuracy and in a rapid way.

It's provided with:

- electronic weighing scale, that manages directly the movement of the double self-cleaning auger, as regards type of dosage and memorisation of recipes;
- removable bridge breaker device;
- user-adjustable loading bench to fit the size of bags or boxes.

The machine can be disassembled and cleaned easily without tools.

Shown below a list of granular or powder food products easily worked with the machine DFA:

- flour, cocoa seeds, yeast, cooking salt, table salt, pepper, sugar, chocolate chips, rice, barley, spelt, seeds, spices, shelled peanuts and thick sauces.

The structure is made in stainless steel and, therefore, suitable for contact with food.

#### Technical features:

Height: 1750 mm

Width: 650 mm

Length: 860 mm

Hopper capacity: lt 30
